

Management

Summary

This category encourages the adoption of sustainable management practices in connection with design, construction, commissioning, handover and aftercare activities to ensure that robust sustainability objectives are set and followed through into the operation of the building. Issues in this section focus on embedding sustainability actions through the key stages of design, procurement and initial occupation from the initial project brief stage to the appropriate provision of aftercare.

Assessment issues

Man 01 Sustainability brief and design	4 credits
Man 02 Life cycle cost and service life planning	4 credits
Man 03 Responsible construction	6 credits + 1 exemplary
Man 04 Commissioning and handover	3 credits
Man 05 Aftercare	3 credits
Man 06 Building physics	3 credits
