

# Waste

## Summary

This category encourages the sustainable management (and reuse where feasible) of construction and operational waste and waste through future maintenance and repairs associated with the building structure. By encouraging good design and construction practices, issues in this section aim to reduce the waste arising from the construction and operation of the building, encouraging its diversion from landfill. It includes recognition of measures to reduce future waste as a result of the need to alter the building in the light of future changes to climate.

## Assessment issues

Wst 01 Construction waste management	5 credits + 1 exemplary
Wst 02 Recycled aggregates	1 credit + 1 exemplary
Wst 03a Operational waste	1 credit
Wst 03b Household waste	1 credit + 1 exemplary
Wst 04 Speculative finishes	1 credit
Wst 06 Adaptability and disassembly	1 credit + 1 exemplary
